The applicant was represented by Attorney Mickey Barkett, 201 E. Pine St., Suite 315, Orlando, FL 32801. Also, the arrival and departure times will be staggered for the different grades.

   f. Raised walkways will be built as crossings on the east and/or west side of the main church building (based on the school entrance side) to ensure traffic on Stetson & Yale Streets is not impeded by parents and children crossing the road every morning and evening.

Mr. Brooks also stated that of the 33 letters received by the City, 28 were in support, but the majority didn’t live in the affected area.
18) Eric Houston, 1516 N. Westmoreland Dr., Orlando, 32804, spoke as the architect in representation of the applicant. – Mr. Houston addressed traffic and other concerns as follows:

Discussion continued between the Board and City staff regarding traffic, parking and how it would be enforced. Ms. Lauren Torres, Civil Engineer III, Traffic Studies and Neighborhood Traffic, stated that the conditions would be enforceable by contacting the Commissioner’s liaison, OPD and Code Enforcement. Ms. Torres pointed out that extra signage could be added if necessary.

Vice-Chairperson Anderson suggested that Transportation Engineering Condition #1 be modified to eliminate the word “queue.”

Ms. Burkett suggested to amend the condition to read: “Provide a plan on how vehicles will ingress and egress and operate during those pick-up and drop-off with no queuing.” She noted that this would require them to provide a plan that would not allow for any queuing and would deal with ingress, egress and operations.

Chairperson Searl closed the public hearing.
Board discussion continued. Mr. Paul Lewis, Chief Planning Manager, City Planning Division, suggested that since the school will be increasing their student population within the next 5 years, that the plan be revisited to determine compliance.

This item was presented by Colandra Jones, Planner III, Comprehensive Planning Studio, City Planning Division. Using PowerPoint, Ms. Jones presented the proposed project, staffs’ conditions and recommendation, and responded to Board questions. She noted that as SPMP’s (Specific Parcel Master Plans) are submitted for airport related uses in the future, that they would not come before MPB but would rather go before SETDRC (Southeast Town Design Review Committee) for approval.

Discussion ensued among the Board and City staff regarding Cargo Rd. Mr. John Rhoades, Transportation Planning, clarified that the extension of Cargo Rd. depended on the development program. He noted that there was no need to extend the Road at the present time.

Mr. Paul Lewis, Chief Planning Manager, City Planning Division, stated that the Northlake Park @ Lake Nona HOA (Home Owners’ Association) requested to be notified whenever the SPMPs were scheduled to go before SETDRC. He noted that although this was not required by City code, he didn’t think staff would have a problem with notifying the HOA of the meetings.
