

What is SELF?

SELF is non-profit community lending organization that provides favorable financing for assorted home improvements that can help save money on operating costs (i.e., energy and insurance bills), increase equity and home value, improve hurricane resistance, and enhance comfort and livability.

Energy Expertise

An energy assessment is performed at the outset to help identify cost-effective home energy improvements. SELF then provides a follow-up consultation with homeowners to review the energy assessment and identify estimated energy savings for each type of improvement.

Project Management

SELF provides project management from start to finish to help homeowners make informed decisions about home improvements.

Favorable Financing

SELF offers low interest rate loans for assorted home improvements, including: **Energy Efficiency**; **Renewable Energy**; **Wind-Hazard Mitigation**; and, **Water Conservation**. Lending requirements are more flexible than banks, with no money down options.

Products for Home Improvements

Energy Efficiency

- ◆ Air conditioners
- ◆ Weatherization
- ◆ Windows and doors
- ◆ LED lights

Renewable Energy

- ◆ Solar water heaters
- ◆ Solar electric panels
- ◆ Solar attic fans

Wind Hazard Mitigation

- ◆ Hurricane Resistant Windows, Doors, Roofs and Shutters

Water Conservation

- ◆ Irrigation System
- ◆ Rainwater Cistern
