

CITY OF ORLANDO

Homeowner Electrical Declaration

City Code requires construction to be done by licensed contractors. You have applied for a permit under the installation by homeowner provision below:

Orlando City Code, Section 22.16. Installation of Wiring or Equipment by Homeowner.

Nothing herein shall prohibit a bona fide owner from personally installing electrical wiring or the installation of electrical equipment within their own bona fide residence; providing that the applicant **IS A QUALIFIED PERSON AND WORK IS IN A SINGLE-FAMILY RESIDENCE USED EXCLUSIVELY BY THEIR FAMILY.** Such privilege does not convey the right to violate any of the provisions of this chapter, nor is it to be construed as exempting any such property owner from obtaining a permit and paying required fees thereof. The applicant shall comply with the following:

- 1) File plans and specifications and prove qualifications satisfactorily to the chief inspector of electrical installations, which plan, specifications and qualifications must be approved by the inspector.
- 2) Apply for and secure a permit.
- 3) Do work in accordance with this Chapter.
- 4) Receive the approval of installation by the chief inspector of electrical installations.
- 5) The term "qualified person" as used in this chapter shall be held to mean any person qualified under the terms and provisions of this chapter to perform electrical work, including any homeowner who desires to perform electrical work on his/her premises in accordance with the terms and provisions of this Chapter.

Personal installation by the owner (other than electrical contractor) shall be by himself/herself in their own building without compensation or pay from any other person for such labor or installation. The owner exercising this privilege shall conform to all the requirements of this Chapter in the installation of wiring. The owner exercising this privilege **SHALL NOT SET HIMSELF/HERSELF UP AS AN ELECTRICAL CONTRACTOR NOR SHALL THEY EMPLOY JOURNEYMEN ELECTRICIANS, MAINTENANCE ELECTRICIANS OR HELPERS.** They shall furnish affidavits to the above statements if required by the chief inspector of electrical installations.

I HAVE READ AND UNDERSTAND.
